

PERIO FOUNDATIONS

03 May 2024

Prague, CZ

SPEAKER

PROF. GIULIO RASPERINI

LOCAL ORGANIZER

DiS. SANDRA SMĚLÁ

**PERIODONTAL
COURSE FOR
DENTISTS AND
DENTAL HYGIENISTS**

UNDERSTANDING THE DISEASE IS A KEY OF SUCCESS IN ITS TREATMENT

How to **eliminate periodontal pockets without recessions**

How to achieve a **tooth stability**

What do we need to know about **occlusal factors** in periodontology

Do we really need to think about the bone around teeth

What do we know about **interdental attachment**

How to work with the **new classification** of periodontal disease

When should we use **antibiotics**

Minimally invasive **instruments and approaches**, why do we need them

When is the right time and need for surgery

Why understanding the **phenotype** is the key for **minimally invasive treatment**

Motivation, supportive therapy

How to achieve **long-term results**

How to treat periodontal disease **without relapse**

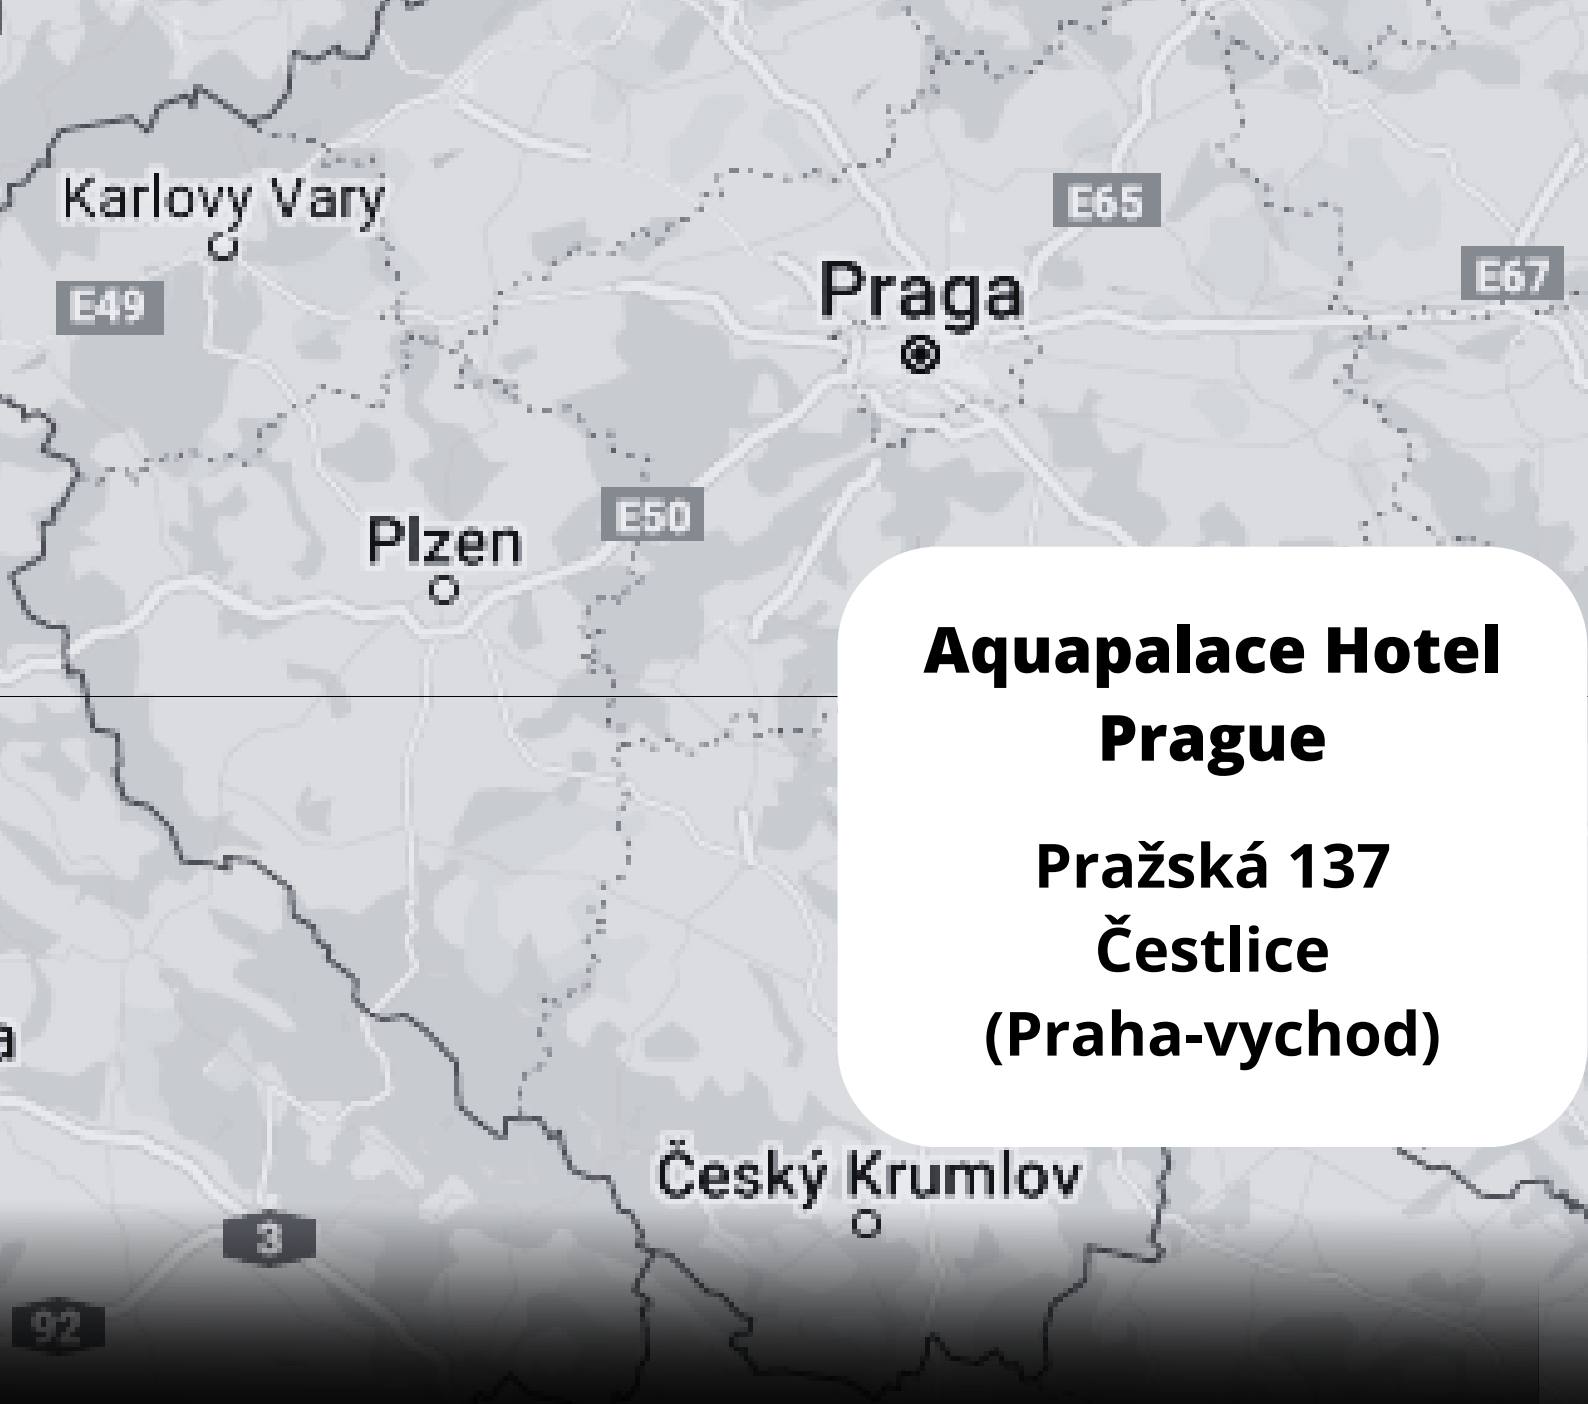

Non - surgical periodontal treatment is much more complicated than just Scaling
and Root Planning
